Subject: RE: Leque Hydrogeologic Evaluation report by PGG

Yes. I want to talk to you first. Just us EPA folk. Loren is with (I think) Fish and Wildlife and their agenda is clear.

From: Hantush, Mohamed
Sent: Monday, April 15, 2013 2:08 PM
To: Jennings, Marie
Subject: RE: Leque Hydrogeologic Evaluation report by PGG

Marie,

Tuesday 4/23/12 will be fine. Is this a different meeting than that proposed by Loren on 4/22, 4/24, and 4/26?

Mohamed

From: Jennings, Marie
Sent: Monday, April 15, 2013 4:59 PM
To: Hantush, Mohamed
Subject: RE: Leque Hydrogeologic Evaluation report by PGG

How does Tuesday 4/23/12 work as a day for us to talk? And we can have a call with the Fish and wildlife folk on a Thursday or does Friday the 26th work for you?

From: Hantush, Mohamed
Sent: Monday, April 15, 2013 1:47 PM
To: Jennings, Marie
Subject: RE: Leque Hydrogeologic Evaluation report by PGG

Marie,

The week of April 22 will be a better time. Friday is my day off. I am still working on the report and will be able to complete it by Friday.

Thanks,

Mohamed

~~*~*~*~*~*~*~*~*

Hi Mohamed

I am hoping that this Friday is a good time for us to talk. If we need to pick another time, I can do so. I am still working on my questions and the approach to the report. I will get them to you by Wednesday. I also will send you the comments that we got on the report from the opposing groups by tomorrow. If you questions call me. Thanks.

Marie,

I will email you my review evaluation of the Leque Hydrogeology project on Monday. Please do not email me any review material from other partners until you've received my evaluation. I was not expecting such a volume of (concentrated) material, but I've enjoyed what I've read; this was an interesting and challenging project.

Thanks,

Mohamed

Subject: RE: Leque Hydrogeologic Evaluation report by PGG

Yes. I want to talk to you first. Just us EPA folk. Loren is with (I think) Fish and Wildlife and their agenda is clear.

Marie,

Tuesday 4/23/12 will be fine. Is this a different meeting than that proposed by Loren on 4/22, 4/24, and 4/26?

Mohamed

9-19

Marie,

The week of April 22 will be a better time. Friday is my day off. I am still working on the report and will be able to complete it by Friday.

Thanks,

Mohamed

Hi Mohamed

I am hoping that this Friday is a good time for us to talk. If we need to pick another time, I can do so. I am still working on my questions and the approach to the report. I will get them to you by Wednesday. I also will send you the comments that we got on the report from the opposing groups by tomorrow. If you questions call me. Thanks.

Hi Mohamed

I have a couple of minor edits on your write-up. There are three comments that you should see. If you don't call me. I am using windows 8, and sometimes there are problems.

I need you to formally transmit the comments to me by writing a brief letter on EPA letter head. You can Pdf the letter and send it to me. I am working with Michael Rylko in Region10 to write the actual determination re: the Leque project. I plan to attach your write-up with the transmittal letter to the determination.

Also, The conference call to convey the results of your evaluation has now been scheduled for June 5, from 1 to 3pm. So block your calendar.

I also plan to do a write-up for your supervisor to let him know how helpful you have been to R10. I will give you a call on Tuesday in case you have questions. (Note: I am on annual leave this week, but I am following up on a few things.)

Marie,

I'm getting some pressure from our Olympia Headquarters regarding the process/dates described below. I've been asked to get a confirmation from you that a final determination will be presented at the June 4, 5, or 6 meeting and a paper copy will follow a week later.

Thanks,

Russ

Greetings Everyone

In my March 18, 2013 email, I informed you that EPA was able to get Mohamed Hantush, from our research facility in Cincinnati Ohio to look at the Leque hydrogeological evaluation. Mohamed is in the midst of that review. Mohamed also, had a few questions for the author of the study re: the modeling; so I put him and Peter Schwartzman in touch via conference call.

I have received a request to generate notes from that call. I will work with Mohamed to do so and have them attached to the report that he is developing.

I also contacted a few of you to see if, when and how you would want to hear from the EPA hydrogeologist. In response, I am working to set up a meeting to discuss the hydrogeologist's comments and assessment of the Leque hydrogeological evaluation.

EPA was hoping to have a determination by the end of May 2013 as to whether or not the removal of dikes from Leque Island will have an impact on the sole source aquifer at Camano Island.

And EPA was hoping to set up a meeting with all stakeholders before the end of May, however, as a result of furlough days that the agency is required to take, the earliest that meeting can take place is the first week in June of 2013. .

EPA's Office of Water has also requested the support of its coastal ecologist (Michael Rylko) on this determination. He will also be in attendance at the meeting.

I am proposing the afternoon of either June 4, 5, or 6th as a meeting day for stakeholders. Let me know which day works best for you. EPA will provide the determination. a week after this meeting.

If I have left anyone off of this list that should be on it; please forward the email. Thanks.

Hi Russell

I understand the pressure and yes I can confirm that at my level of management the decision will be in writing immediately after the meeting. I am not aware of any events (i.e., legal on the part of stakeholders) that would impact the time frame.
